## **INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW**

Assembly Bill 466 (Chapter 737, Statutes of 2001), established the Mathematics and Reading Professional Development Program. The Program greatly assists efforts to increase academic performance in California schools by enabling teachers, instructional aides, and paraprofessionals to participate in high-quality professional development activities in mathematics and reading/language arts over an extended time period.

In addition to addressing the items specifically required by *Education Code* Section 99236, the proposed regulations clarify the intent of the legislation and limit program funding reimbursement to providing professional development to teachers eligible to receive instruction via the Mathematics and Reading Professional Development Program as set forth in *Education Code* Section 99233 and Title 5, *California Code of Regulations*, Section 11981, to one instructional materials program per subject area (reading/language arts and mathematics).

Beginning in the 2004-05 fiscal year, such funding shall be limited to providing professional development to paraprofessionals and instructional aides eligible to receive instruction via the Mathematics and Reading Professional Development Program as set forth in *Education Code* Section 99233, to one instructional materials program per subject area (reading/language arts and mathematics).

The regulations will ensure that program funding is allocated to participating local educational agencies on an equal basis. These regulations will also assist efforts to increase the number of California teachers, paraprofessionals, and instructional aides who may receive high-quality professional development in reading/language arts and mathematics.
